

HAPPY PLACE

by Mark Keathley

Jul 2016

With my toes in the sand and my fingers tangled in the hand of the one I love - it just doesn't get any better than a stroll on the beach. It's my "Happy Place" to go in my mind when life isn't so relaxing. I created another place to go and rest for you and yours as you too try to rest in the moment of the day. So kick your shoes off and relax in your special "Happy Place."
