

WINTER NAP

by Abraham Hunter

I'm one of those annoying people that get into the Christmas sprint really early. As soon as it gets cold, my brain plays Dean Martin singing "Let It Snow" on repeat. We don't usually get snow down here in Tennessee, but when we do it makes me so relaxed and sleepy. This momma and cub have the right idea! No better way to bring in the season than bundled up and cuddled up! Hope Y'all like this one!
