

MYSTIC FALLS IV

by Mark Keathley

July 2019

Grotto Falls is one of the most scenic waterfalls in the Smoky Mountains. It is absolutely breathtaking to view in the springtime. The earth and water are warming up from their harsh winter's nap, while the dogwood trees blossom with their majestic blooms, and the birds flutter about while the sunlight peaks through the newly sprouted greenery. And if you listen carefully, you can hear the nearby beaver scurrying about for his morning swim.

Spring is a fantastic time of year, it reminds us of hope, and new life as God masterfully paints the earth with HIS palette. The birds sing HIS praises and fill the air with songs of thankfulness to the ONE who has never failed to meet their needs. The dogwood blooms bring with them a greater reminder of God's love. As the legend is told, the leaves bear the reminder of God's greatest gift and show us his majesty and wonder in a simple bloom. Breathe in the spring air and enjoy this representation of God's masterful artistry.
